

Our services for educational specialists working in kitas and childminders:

- Advice if you are concerned about a specific child
- Therapeutic-educational medical history with observations in the kita (with the parents' consent)
- Advice regarding approaches on need for assistance
- Support during discussions with parents
- Advice on support services in the social environment
- Involving the specialist counselling of the kita sponsoring organisation
- Referral to a specialist body for further processing of the issues

You are **parents** and worried whether your child is developing in an age-appropriate way? You are unsure how to deal with your child and how to encourage him/her? Then you are welcome to contact us (also anonymously).

Our services for parents:

- Counselling (also anonymously)
- Therapeutic-educational medical history with observation of the child
- Discussion with caregivers at the kita or childminders (only with the parents' consent).
- Accompanying parents during talks at the kita
- Advice on support offers near where you live

You can contact us directly. Our consultations are open to all and free of charge.
